## *Vibrant Coffee Filter Flowers*

**Have fun with your child as you create this beautiful flower bouquet using large white coffee filters, watercolor paint, and pipe cleaners!**

**Each flower is made from two folded filters. The brilliant swirling color is made with drops of watercolor paint. A bit of glue and a pipe cleaner hold each flower together. After they dry, fluff the flowers, insert into a jar of salt, and enjoy your colorful centerpiece or give as a gift!**

**Find the detailed instructions at [Fun at Home with Kids](#).**
