## Whirly Birds

These silly birds are flying all over the place! Build your very own whirly bird in just a few simple steps.

### Materials you will need:

- Balloon
- Feathers
- Markers
- Tape
- Clothespin

### How to make your own whirly bird:

1. Blow your balloon up
2. Twist the neck of the balloon and clip it closed with a clothespin to keep the air inside
3. Carefully tape on your feathers
4. Draw on a special birdy face
5. Remove the clothespin and let your birdy fly
6. Blow the bird back up for extra rounds of fun
