

Filming Getting Started Guide

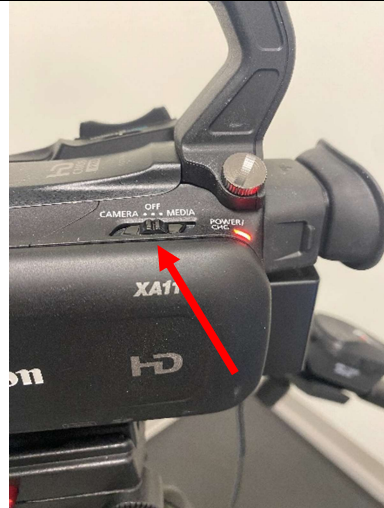

1. Set up the camcorder on the tripod if needed. Open the display screen on the left side and insert your SD card.

- a) Lift the clear door and insert SD into slot A. Make sure the gold metal pieces on the SD card are facing away from you.

2. To record:

- a) Slide the power toggle on the upper left to "camera". (To view your already recorded files, slide to "media").

- b) Press the start/stop red button on the back right of the camera or the start/stop red button on the upper handle.
- c) A red circle will appear at the top of the display screen when the camera is recording.
- d) To stop recording: press the start/stop button again. The

red circle will disappear from the display screen.

3. To zoom:

- a) Use the bottom wings on the Libec handle controller to zoom in and out.
- b) You can also use the zoom button at the base of the handle near the start/stop on the back of the camera.

**** Make sure to remove and take your SD card before leaving the Studio. ****
